Roadmap

- Forum UI Revamp fatiki ↗, Benito ↗ and Loic ↗:
- Improve Cypht integration (Jason, Marc and Victor)
- Refine XMPP integration: http://wikisuite.chat ↗ (Fabio and Marc)
- Take advantage of PHP 7.2
- Taking print and newsletters output to the next level of quality (Marc + Bernard Sfez / Tiki Specialist)
  - Converting dynamic JavaScript content into static assets (Ricardo and Marc)
- https://tiki.org/forumthread66610-Progress-on-File-and-directory-structure-revamp-at-TikiFestJapan2017 ↗ (Fabio, Jonny and Marc)
- Object freshness concept, and maintainer (aka Page Owner): make generic ↗ (Roberto and Jonny)
- VueJS In Tiki Jonny
  - Conditional display of fields in trackers, with Vue.js (Jonny and Marc)
- Custom admin panel in wiki page. Permit to modify preferences without tiki_p_admin (Ricardo and Marc)
- Federation (Victor and Marc)
  - Figure out a future-proof way to share data between Tiki instances.
    - Ex.: Add an Application Programming Interface (API) to improve Federation capabilities, and for BPMN, hopefully in Tiki22
      - Mainly add a REST API "adaptor" code to make all services available over REST
