

Setting up the site for testing

- Reinstall the DB, using Barebones profile (done)
- When re-installing, make sure to insert a valid e-mail into the Admin e-mail. (we will use this later) If admin email is not entered, our test will crash - Tiki should have better message if email is not entered
- Install the Collaborative Community profile (done)
 - AD: I'm surprised that you have to install all those other addons. I would have expected the Collaborative Community profile to install all of those in one go!
 - Install the Collaborative Community Profiles Addons (done)
 - Install - Collaborative_Community_4x_FileGalleries_Addon (done)
 - Install - Collaborative_Community_4x_Blog_Addon (done)
- Create three users: test_editor (in Editors group), test_registered (in Registered group) & test_subadmin (in SubAdmin group) (done)
 - Admin > Users (Users link at bottom of page)
 - Add New User tab
 - In User:, type name of the user
 - Type a password twice.
 - Uncheck Send an email to the user in order to allow him to validate his account.
 - Add button.
 - Your new user appears in the list at bottom of page. If you need to change his group:
 - click on the group icon beside it.
 - click on the green plus sign beside the groups you want to add this user to. (done)
- Create a posting in one of the discussion forums. (done)
 - Check the option "Send me an e-mail when someone replies to my topic" (done)
- Create a new calendar
 - Admin > Calendar > Create / Edit Calendar (tab)
 - Give Calendar a name
 - Leave other fields as is.
 - Save
- Create a new calendar Event (fail - calendar not enabled)
 - Main Menu > Calendar > Add Event (done)
 - Give event a name
 - Give event a Start and End time
 - Set event as Confirmed
 - Save event (done) But event not showing in main page - calendar is not shown on main page
- Create a File Gallery this is a bug since the profile is suppose to create the file gallery. For the sack of of this test we need to manually create the file gallery (done)
 - Main Menu > List Galleries > Create a File Gallery
 - Give your gallery a name
 - Save
- Upload a file to your newly created gallery (done)
 - Upload file > Browse
 - Select a file from your computer
 - Upload (done)
- Create a Wiki Page Comment (done)
 - Main Menu > Home
 - Add Comment
 - Insert Title and Description to your comment

- Post (done)

Testing Anonymous

- Logoff

Anonymous UI Test

- Make sure anon **CAN**:
 - See the following items in the Top Menu
 - Home (done)
 - About (FAIL - Points to tiki-index.php)
 - Community (done)
 - Calendar (FAIL)
 - Forums (done)
 - Files (done)
 - Help (FAIL - Points to tiki-index.php)
 - Wiki Syntax Help (done)
 - See the following Modules
 - Calendar (FAIL)
 - Upcoming Events (FAIL)
 - view the Search Box (done)

Anonymous Search Test

- Enter "Mozilla" into the search
 - Make sure anon **CAN**:
 - View Search results (done)
 - User should see a page result called "Community" which contains the word "Mozilla" (done)

Anonymous Wiki Test

- Click on "Home" from the Top Menu
 - Make sure anon **CAN**:
 - View the page (done)
 - Read comments (if you added a comment to the home page from earlier steps, anon user should see this) (FAIL)
 - Make sure anon **CANNOT**:
 - Edit (done)
 - View History (done)
 - Rename (done)
 - Add a Comment (done)

Anonymous Forum Test

- Click on "Forums" from the Top Menu
 - Make sure anon **CAN**:
 - View the list of forums (done)
 - Click on "Discussion Forum" (This forum should have been created by the Profile) (done)
 - Click on a message and view its content (done)
 - Make sure anon **CANNOT**:

- Post on the forum (done)
- Delete a forum posting (done)

Anonymous File Gallery Test

- Click on "Files" from the Top Menu (FAIL)
 - Make sure anon **CAN**:
 - View the list of File Galleries
 - Click on "tool icon"
 - user can Display
 - user can download
 - Make sure anon **CANNOT**:
 - Create a File Gallery
 - Upload a File

Anonymous Calendar Test

- Click on "Calendar" from the Top Menu
 - Make sure anon **CAN**:
 - View the Calendar
 - View the event inside the calendar
 - Hover over the event in calendar Nothing happens, intuitively the popout should show
 - Click on the event (User should see event details) if popup is visible and user hovers over Event title, a 2nd popout with HTML code appears
 - User should be able to click on "magnifier" in the popout go to detailed view of event
 - Make sure anon **CANNOT**:
 - Create or delete a calendar
 - Create or delete an event

Testing Registered

- Login as test_registered

Registered UI Test

- Make sure registered **CAN**:
 - See the following items in the Top Menu
