

Video Editor

Kaltura, Video, Video annotations, Video Editor, Multimedia, Screencast, Slidecasting and BigBlueButton should be re-organised.

Video editors were removed from KMC, as part of an overall approach of releasing new alternative tools for video editing, and deprecation of current editors. the KSE and KAE are still included in the Kaltura CE package and will live on as community projects on Kaltura.org. [↗](#)

Thus, let's be on the look out for alternative tools
